JOHN H. GARVIN, Town Clerk.

Report of School Board.

Your School Board respectfully submit the following report for the past year:

The schools in town went through their usual course very much the same as in the preceding year with the exception of the following changes.

Being unable to procure transportation of scholars from North Wakefield to the Wentworth district, a school was held in the former place during the year, and at the latter the first two terms. The last term there being only three scholars in the Wentworth district it was thought best to have the school at Woodman's.

The school at Union was divided at the commencement of the year, thus making two extra schools in town.

The teachers employed during the year have all been well qualified to instruct in the branches required to be taught in the several schools; failures, if there have been any, have resulted from want of order, without which no school can be a success. If such be the necessity of order in the school, then the ability to secure and maintain it is no mean part of the qualifications of the good teacher. There is usually but very little trouble in government

where the scholars are deeply interested in their studies or school exercises. He is the successful teacher and the successful disciplinarian who can excite and maintain the necessary interest.

We are surprised at the amount it has cost the town for text books and school supplies during the past year, and yet the money has been as economically expended as it could be. Only one complete change was made, viz: the readers. When we introduced the new reading books we requested the scholars in every district to give us their old books to return to the publishers to lessen the expense of the new books. None were *compelled* to give up their old books as was reported. We have but few books on hand that have not been used. We should say that hereafter the annual expense of text books and supplies will not exceed two hundred dollars.
